Dear Supporter of The Living Choice (the Elvin Easton family mission work)

I am praying that the Lord fill you with the power of His Spirit and love. We have past now from the realm of prophecy to that of the fulfillment of its final words and the last opportunity to give The Last Call to the world before Jesus returns. Your prayers and friendship in Christ are so special to me, Elizabeth, Kathy and Brian and we keep a long prayer list of all those who have touched our lives. Often we feel and recognize the effect of the prayers of others for us as well.

Although the Dominican Republic is a fairly well developed country, because of our location, communication remains a challenge. We often yearn for fellowship with our stateside family and wish that we could minister to you in a much more personal way. However; we have come to realize that *on this earth*, we may never get to see many of our friends and family again because of our commitment to follow through on what He has called us to here. Unless of course the Lord sends them here to us☺! The only certainty we have for the future is the rapid decline of this earth into the final events and the glorious close of the work of the three angel's messages.

Each of us would love to correspond with you personally as long as the world's circumstances will permit. The best way to communicate with us is through e-mail missionfamily@gmail.com . However, you may write to our U.S. postal address and your letters will be forwarded to us electronically. We in turn will write back to you. (P.O. Box 36 Oakpark, VA 22730)

The work continues as we know how, the agriculture, (write and ask for a paper on why agriculture is so important in the last day work for God), bible studies, health work, etc.. By God's grace Elizabeth and I will hold our first series of meetings in August and open the elementary and secondary assistance in education to the youth of our territory by mid September.

We appreciate everything you have done in prayers and contributions for God's work here and we are praying for you.

In recent months we have received a large Spanish Spirit of Prophecy library, literature to distribute, medical supplies, missionary books for our encouragement and many other items that have been an enormous help and encouragement to the work here. Please keep praying for us. And please be faithful to Christ until the end. Kathy is eighteen and struggles with whether or not she needs further training away from us in order to be a more effective help. Brian is twelve and already has become my right-hand man. Elizabeth and I are anxious to expand our reach while not letting our foundation slip. And the Lord is still working out the long term help situation. Hope to hear from you, even just a short hello would be more encouraging than you might imagine.

This is a picture of the whole family with Selah Honey who came to help us for a month and also Elizabeth's foster mom.

Looking Unto Jesus,
Your Brother Elvin on behalf of the Easton Family
In the Dominican Republic
T.L.C.
